## Education

### Vellore Institute Of Technology

Bachelor of Science in Information Technology (CGPA: 9.32 / 10.00)

2021-Present

Vellore, TamilNadu

- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming System, Database Management System, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence

### Narayana Educational Institute

Board of Intermediate Education, MPC (Percentage: 96.8%)

2019-2021

Hyderabad, Telangana

### New Vision High School

Board of Secondary Education (CGPA: 10.00/10.00)

2010-2019

Khammam, Telangana

## Experience

### Samsung

R&D Research Project Intern

Feb 2024 – Aug 2024

Remote – [SRI-B]

- Extracted and processed dataset from the `override_list.pb.gz` file, which included labeled data for 50K websites.
- Classified websites according to Taxonomy v2 labels.
- Prepared and formatted the train-dev-test dataset, developed a baseline model, and evaluated its performance.
- Selected base model architecture for fine-tuning and established a training pipeline for multi-label classifications.

### Student Coordinator

Registration & Reception

Feb 2024 – Mar 2024

VIT, Vellore

- Student Coordinator for the Annual International Sports and National Cultural Festival Riviera'24.

## Projects

### Quiz App [Link](#) | HTML, CSS, JavaScript, jQuery, Json, Node.js, MongoDB, Express

- Developed and deployed an interactive and user-friendly full-end web application to enhance the online quiz experience for faculty and students.
- Implemented a secure authentication system allowing faculty members to log in, create, and manage a database of quiz questions.
- Designed a dynamic quiz generation system where students receive a random set of 5 questions per session, ensuring a unique quiz experience every time.
- Built a robust backend using [Node.js/Express], ensuring efficient data handling and storage.
- Github Repository Link: [Github](#)

### Smart Parking System using ESP8266 | Arduino Programming, Internet of Things

- Developed an innovative parking system using the ESP8266 WiFi module, enabling real-time monitoring and management of parking spaces.
- Designed and implemented a web application template to access and visualize data from the WiFi module, leveraging Adafruit IO for efficient data handling and presentation.
- Enhanced user experience by providing an intuitive interface for users to check parking availability and manage parking spaces remotely.
- Github Repository Link: [Github](#)

### Real time Gait disorder analysis using SVM and KNN classifiers | Python, scikit-learn, Pandas, NumPy

- Collaborated with a faculty member Dr. KishoreRaja P C from VIT Vellore on a research project focused on the real-time Gait disorder analysis using SVM and KNN classifiers.
- Utilized pre-trained models and datasets to analyze gait patterns and identify potential disorders.
- Conducted data preprocessing and feature extraction to improve the accuracy of the models.

## Competitive Programming

---

- **LeetCode** ([sai\\_jayanth](#))
  - Problems Solved: 450+
  - Contest Rating: 1550
- **Codeforces** ([saijayanth](#))
  - Problems Solved: 120+
  - Contest Rating: 1000
- **Coding Ninjas** ([sai\\_jayanth](#))
  - Problems Solved: 150+

## Technical Skills

---

**Languages:** C++, Java, C, SQL, Python

**Technologies:** HTML, CSS, JavaScript, Express.js, jQuery, Bootstrap, Node.js, MongoDB, React.js

**Concepts:** Data Structures And Algorithms, Operating System, Database, Object-Oriented Programming System, Artificial Intelligence, Machine Learning, Internet Of Things, Arduino Programming

## Achievements

---

- **LeetCode Daily Coding Challenge**
  - Maintained a streak of over 200 consecutive days of coding on LeetCode, successfully tackling daily challenges and enhancing problem-solving skills over 7 months.
- **VIT Value Added Course: Industry and 4.0 Enabling Technologies**
  - Completed a comprehensive Value Added Course from VIT, focusing on Industry 4.0 Enabling Technologies. [\[Certificate\]](#)
- **Flipkart Grid 5.0 Software Development Track**
  - Participated in Flipkart Grid 5.0 Software Development Track, showcasing skills in software development and problem-solving. [\[Certificate\]](#)

## Social Engagements

---

**Coordinator:** Student Coordinator for the Annual International Sports and National Cultural Festival Riviera'24.

**Club Member:** at IEEE-IAS Chapter (Technical) at VIT, Vellore, and Sahiti TLA Club (Cultural) at VIT, Vellore.

**Sports-Engagements:** Badminton, Cricket, Volleyball.
